Course Dates: 3/30/26 – 5/22/26

- First day course orientation via Zoom is on **3/31 Tue at 7pm**.
- Optional live Zoom meetings are **Tuesdays from 7pm-8pm**
- Attendance to the Zoom meetings is not required but is highly recommended.
- Assignments are due on **Sundays at 11:59pm**

Course Description:

This course introduces students to Web site development. The course uses a workshop approach, illustrating key features with practical hands-on examples. Throughout the course, students will be exposed to the planning phase of developing a Web site that will include defining the goals and objectives of the site, identifying the audience, organizing, and gathering the content, defining the site's look and feel, and mapping out the organization structure, navigation, and links for the site.

Students will be using Adobe Dreamweaver Creative Cloud to design and create a Web site. You will learn how to organize and insert content including text, images, multimedia, hyperlinks, tables, frames, and forms on a Web page. You will also learn how to apply cascading style sheets when designing a Web site. Lastly, the course will also cover registering a domain name, choosing a host service, and publishing a Web site. Students will create a Web site for business, educational, or personal use. This course is half semester class and is required for the completion of the Web Page Dev Certificate.

Statement of Course Objectives:

Upon satisfactory completion of this course, you will be able to:

1. Apply the various design techniques in creating Web pages using Adobe Dreamweaver.
2. Have a thorough understanding of organizing and laying out the content on a Web page.
3. Identify the steps in planning, designing, and implementing a Web site.
4. Demonstrate knowledge of the topics through the completion of lab assignments and course project

Course Requirements:

1. Class meets 1.5 hours meets via Zoom on Tuesdays at 7pm to complete the lab exercise together. I will demo the lab exercises as student complete theirs. Meetings will be recorded. Attendance is not required but is highly recommended
2. The work for the course consists of the following:

a. 7 Lab Assignments @ 35 points ea.	245
b. 8 Online Discussion Participation @20 pts	160
c. 7 Knowledge Check (Quizzes)	100
Total:	505 points
3. Class grade will be computed as follows:

450 - 500 points = A
400 - 449 points = B
350 - 399 points = C
300 - 349 points = D
Less than 300 = F
